

## **Sarah Campbell**

I moved to Coldingham Moor with my husband in October 2022 and have been volunteering with the Berwickshire Marine Reserve since December. I have taken part in a variety of activities including beach cleaning, intertidal surveys and science experiments with local schoolchildren, and have become increasingly aware of the role that the BMR plays in the protection and promotion of this unique coastal area. I am keen to lend my skills and qualities to the position of Trustee to help the BMR continue its important work for the benefit of the environment, and the education of the local and visiting community.

I am a retired Police Chief Inspector with 28 years' experience of operational and neighbourhood policing, training, community safety and public protection. I have experience of people and project management, critical incident management, and of working in partnership with other public and third sector organisations. My last role was as an Inspection Officer with His Majesty's Inspectorate of Constabulary and Fire and Rescue Services. I coordinated inspections and Home Office investigations, gathering, collating and analysing a diverse range of data and presenting conclusions for national reports and Publications.

Prior to joining the police, I gained a PhD in physics from the University of Southampton and continue to have an interest in science and the physical environment. I have since gained further academic qualifications in education, specifically in leadership training and development.

I enjoy both pool and open water swimming, surfing and paddle boarding, and am a keen birdwatcher and nature enthusiast.
